Don,

I agree w/Mark's comments below and have attached a version of the decision document that highlights continued areas of concern on pages 15-20.

We'll need to get back to them soon with either a phone call or letter articulating our remaining concerns. Once you have a chance to review the materials, let's discuss how to best proceed. Mark – Don and I are both out tomorrow, but back in the office on Monday. Thanks.

Hey Mark – I haven't seen the revised document, but they may have sent to Don since the comment letter came from him. At any rate, I'll take a look and let you know if we have any comments. Thanks.

Hey Anita – looks like the Region is trying to crank out the CZARA document we commented on late last year. Did they share these revised documents with you all? In any case, my OGC water counterpart's note below suggests they are looking for a quick turnaround (this week). If you haven't been asked to review it, you can just send me any reactions.

Allison and All,

This document is also in very good shape. I focused on the new material, which strengthens the document further, and scanned the rest. Several comments and typo corrections are in the attached markup.
